

Froggy's Fog Poseidon Aqua 2 Low Lying Ultrasonic

Description

Froggy's Fog Poseidon Aqua 2 Low Lying Ultrasonic is an event-ready, low-lying fog machine that creates thick clouds that hug the floor without the need for dry ice. The onboard ultrasonic agitator converts distilled water into a thin mist. The unit's fast heat up time allows for quick operation and fog on demand. It's rugged flight case makes transportation a breeze and locking casters prevent accidental rollaways. Froggy's Fog Poseidon Aqua 2 Low Lying Ultrasonic can be controlled with the on board digital display or DMX.

Features:

- Advanced Auto Water Refill System
- Multi-Stage Humidity Control
- Complete Fog and Fan Volume Control
- Gravity Fed Water Reservoir (No water pump)
- Auto Senses Low Water & Low Fog Fluid
- Optimized Water Level Sensor for ideal ultrasonic operation
- Unique Water Recapture Design minimizes condensation
- Ruggedized Single Piece Chassis
- Austenite Welding and Anti-corrosive Primer
- Optimized Heater Core for Continuous Operation
- Advanced Fog Expansion Chamber Design
- 2 x High Powered DC Fans for Long Life and High Output
- Touch Screen LCD & Built-in Wireless Control

Manufacturer	Froggy's Fog
Effect Type	Fog
Required Material	Fluid
Heat Up Time	4 minutes
Output Duration	app. 60 min at full volume
Fluid Consumption	25.0 mL/min at full volume
Fluid Capacity	.8 Gallons
Weight (lbs)	101
Dimensions	29 x 15.4 x 17.7"
